

# SYMPTOM GUIDELINES

## SCHOOL PREVENTION

IF A STUDENT OR STAFF MEMBER HAS A NEW COUGH, DIFFICULTY BREATHING, LOSS OF TASTE/SMELL OR TWO OR MORE COVID-19 SYMPTOMS:

- If at school, the student will be moved to a quarantine room. The student's parent/guardian will be contacted and asked to pick up their student within 30 minutes.
- If student/staff tests positive for COVID-19 they may return to school 10 days after symptom onset and 24 hours fever-free.
- If the student/staff test positive for COVID-19, parents in the class impacted will be notified.
- Any students with symptoms of COVID-19 (with no direct exposure) may return to school 10 days after the first symptom appears, and the student must be fever-free for 24 hours. They may return before the 10-day window with proof of a negative COVID-19 test.

QUARANTINE:

- If a student/staff is directly exposed (less than 6 feet or more than 15 minutes) at school, the student or staff member will be notified by an administrator and given a date they may return.
- If a student/staff lives with someone who is ill with COVID-19 symptoms they need to stay home until the 14-day quarantine ends or the family member receives a negative COVID-19 test.

## COVID-19 SYMPTOMS

- NEW COUGH
- DIFFICULTY BREATHING
- LOSS OF TASTE/SMELL
- FEVER OR CHILLS
- CONGESTION
- NAUSEA OR VOMITING
- DIARRHEA
- HEADACHE
