**ENRICHMENT/ELECTIVE CLASSES:** All students may sign up for the following courses.

**STEAM Academy (Both Sessions) (6786)-** This class will focus on Science, Technology, Engineering, Arts and Math skills in practical real world experiences. This class will be primarily hands on with an added focus into computer skills including coding. Additionally, this class capitalizes on student's creativity and expression through visual projects as well as broadcast and technology skills. Students will experience learning in a variety of ways that will enrich their interest and skills in STEAM studies.

**Health Career Field Exploration at TMC Lakewood (June 5-16) (7878)-** Students will spend 10 days exploring various health careers at Truman Medical Center-Lakewood through training simulations, shadowing and observing. Students will work towards getting their CPR and First Aid Certification. Transportation will be provided from Paul Kinder Middle School and students will need to provide their own lunch. For current 7<sup>th</sup> and 8<sup>th</sup> grade students only and limited to the first 30 that sign up. A wait list will be created after that.

**\*Students that enroll in this class may also enroll in the STEAM Academy which will meet the duration of summer school June 1-27.**

**Broadway Bound (Session 1 only) (7811) --** Are you a star and ready to shine on stage? Don't let the summer get in the way of sharpening your acting skills! This class will give you the opportunity to continue your practice with creative warm-ups, games and drama activities. At the end of summer school we will show off your talent with a spectacular performance.

**FACS – Foods (Both Sessions) (7803) –** This exciting family and consumer science (FACS) class will focus on foods. There will be a different theme each week, with students preparing foods using the week's theme.

**Social Studies (Session II only) (6602) –** Want to learn more about American history in a fun environment? Students will explore our country's history through literature, music, research and other means.

**Science (Both Sessions) (6603)-** This course is designed for students that would like to expand their science skills over course material taught in grades 6-8 science. Big ideas from the Physical Science, Life Science and Earth Science courses will be covered.
