

Dynamic Student Edition eBook App

The Dynamic Student Edition contains the entire student text and a number of embedded digital resources. The eBook App version of the Dynamic Student Edition allows the text to be downloaded for offline reading. Digital enhancements including English and Spanish audio support, Dynamic Investigations, and Lesson Tutorial Videos require a data or internet connection.

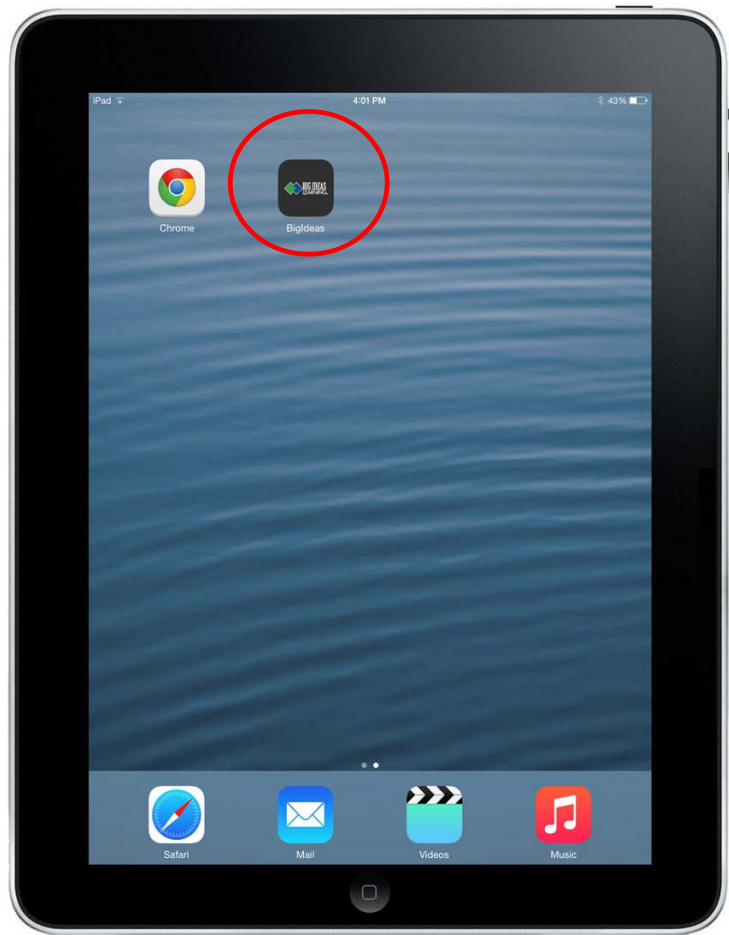

The Dynamic eBook app works with the *Big Ideas Math* EAS3 Management system. Users must have their profiles completed in EAS3, and the Unique Id and e-mail address fields cannot be left blank. Once a teacher has assigned a book to a class in EAS3, the book will automatically be available for students in their version of the eBook App.

For questions about the eBook App or the EAS3 management system please contact the *Big Ideas Math* Technical Support team at bil_support@larsontexts.com.

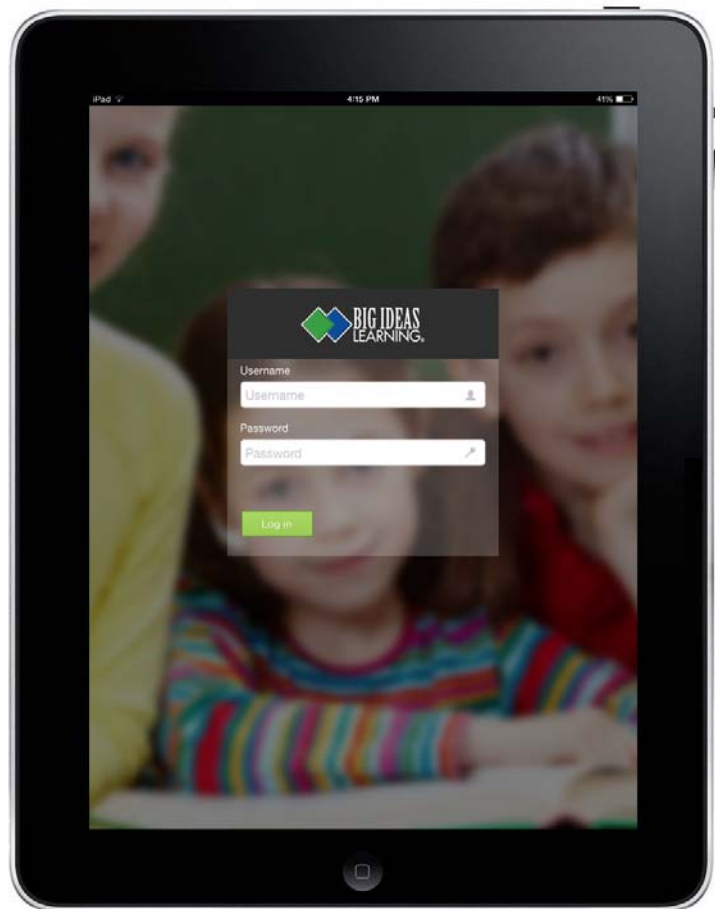

The iPad app can be found in the iTunes store by searching for “Big Ideas” or by going directly to <http://goo.gl/lvl3YC>

After installation, locate the App on your device.

Your username and password will be the same that you use to login to BigIdeasMath.com

After logging into the app, you will see any books that have been assigned by the teacher. Click the green “Download” button beneath a book to download it to your device. The length of time for a book to download is dependent on the speed of your data connection and may take several minutes. To remove a book from your device press the 3 line menu icon below the book you wish to remove. This will present the option to archive, select this to remove the book.
