Chapel Lakes Career Day

Throughout the month of January and February I have been focusing on career awareness to help promote career development within our students. Each grade level will learn about the different career paths, common characteristics of careers matched with personal interests and training. As part of this focus students will get the chance to come to school dressed as their future career. This event will be on Tuesday, February 14.

If you would like some resources to explore careers at home with your children I am including some websites you could use:
