# Prime Time (PT) 2016-2017

The Blue Springs School District's K-5 Prime Time (PT) program provides high quality before school, after school, and full-day service in a safe and nurturing environment that supports children, youth, parents, and the community. PT expands and enriches learning opportunities through social, recreational, and personal life skills development. PT partners with the home and community, offers a wide variety of experiences, and affords families service within the convenient confines of their resident school. To assure sustainability, PT is fee-based with weekly tuition covering all operating costs, including field trips and special activities. As a result of being fee-based, scholarships and/or subsidies are not offered.

PT service is available August – May at the district's 13 elementary schools and is offered at designated locations throughout the summer and during full-day sessions, including those due to inclement weather. Early bird enrollment for the 2016-2017 PT term occurs at all 13 sites Monday, April 11 – Friday, May 13. Please contact your resident school site lead for details.
