

ACT Focused on Learning Academy Afterschool Tutoring Opportunity

- Beginning November 15th, 2016, Mr. Kriegel and Mrs. Lee will be offering ACT preparation opportunities afterschool using Focused on Learning Materials in preparation for the December Test (12/10).
- The institute includes three weeks of preparation with six hours in each subject. Each day, instruction will run from 2:30 to 4:30. See the below schedule. There will also be two follow-up dates, at the beginning of second semester for students who order specific item results/item analysis through ACT. Instructors will then focus on specific issues from the December test results and offer suggestions for improvement.
- ****NOTE: We will use the October 19th practice test during instruction, so students should keep their results and tests from 10/19, so we may focus on areas of need for each student during the three weeks of instruction.**
